Icadiye Mahallesi, Cemil Meric Sokak, Bogazici Apartmani, No:50 Daire:9
Istanbul, Turkey

Experience

Front End Engineer

Sekerbank · Istanbul / Turkey

09/2020 - Present

- Under the name of Digital Transformation Program, contributing the development of internal applications for the company.
- Tech Stack: React.js, TypeScript, Material-UI, SASS, Bootstrap and HTML.
- CI / CD tools: Bitbucket, Jira and Bamboo.
- Have the responsibility of newcomer junior developers' educations and integrations. I work with them as pairs during this period.

Front End Engineer Intern

TESYS Traffic Engineering System · Lecce / Italy

06/2019 - 11/2019

- Worked with Ubuntu, HTML, CSS, Vanilla Javascript (ES5-ES6) and Angular 2.
- Developed a web based game with both EcmaScript 5 and EcmaScript 6.
- Developed a multi page to-do list with Angular. Practiced single page application logic, passing data between components and routing.
